THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

SUNSTROKES.

Fools and fads both begin with the same letter and both are present in large numbers.

If a little girl with red hair is dangerous, what must a big girl be with the same colored hirsute appendage?

When you see a man walking along the street with his head thrown back as if he knew it all, it may be he is shy on ballast.

A school boy on being asked to write a sentence containing the word "dogma," deliberated for a time and then wrote: "The dogma have five pups."

There is one thing about a Keeley institute that they will not guarantee, and that is to give a man ability to use good judgment. The remedy will restore the system, but if the head is lacking the case is hopeless.

How's your kidneys? An English M. D. claims to have discovered that insanity and other nervous diseases are due in a large percentage of cases to movable kidneys and may be cured by a comparatively simple surgical operation. So when a man is conspicuous for mental soundness we must no longer say that his head is level, but that his kidneys are in the right place.

The cost of sea coast defenses come high but we must have them. The engineers want \$16,000,000 more to complete the fortifications of the sea coasts of the United States. There has already been appropriated for this purpose \$28,693,434. Permanent projects at 81 different points have been adopted and most are well under way.

The fellows who think that Ohio is a doubtful State may be right. But that is the trouble with some people; they have too much confidence in the Buckeyes. The election of Pattison has but little political significance. The Presidential campaign, when Federal offices are at stake, will make a difference in the vote.

New Orleans business men are talking of organizing a five million dollar life insurance company. We don't know much about life insurance, but would like to be president.

The free distribution of seeds by Uncle Sam will commence December 1st and in about three months from the time the people who used them will be mad at their uncle.

A pretender to the throne of Russia has appeared. If he finds it as hot as the present occupant, he won't want to hold it down until it gets cooled off a little.

"The great cause of education is too important to be made the plaything of sentiment or local ambition," says The St. Augustine Record.

They had a \$180,000 cotton fire at Columbus, Ga., a few days ago, thus sending up 2,000 bales in smoke.

There will be large crowds at the State Fair next week. It is a hummer and excels all others.

NORTH AND SOUTH.

There is much talk in regard to President Roosevelt's visit to the South and the impression made, both on the President and on the South, which could be easily understood by any, all, if they would enjoy the same experience as President Roosevelt and make a similar tour. There is little or no difference between the people of both sections. Both are Americans and proud of it. It is doubtful in the mind of the writer if you could find a man in the North but what is proud of the rapid progress being made in the South and if they could only come and see for themselves would be prouder still.

When President Roosevelt came he found men of his own stamp of character; he saw the South as a part of his own native land and its people as his people, hence it is not surprising that he conquered a place in their hearts which nothing can ever obliterate.

Himself an ardent American and worshipping at the shrine of its loftiest ideals he found here that he was standing on common ground with the Southern people who have ever bowed at the same altars and stood for the same patriotic principles.

The President came as an honest man, says The Chattanooga Tradesman, with honest words of admiration for what the South loved most and at once the hearts of the people were opened to him as none could have prophesied would ever occur. His words of greeting to Mrs. Jackson, "the widow of the great Stonewall Jackson," as he involuntarily exclaimed, and as being worth his whole trip to have met, was the merriest tribute that he could have paid to the holiest memories of the South and it made him thenceforth as one of our own people.

The trip was indeed a great one. Great for the President, for he knows the South as he never knew it before, and great for the South, as it can now challenge the world through a channel that will not be questioned as to its loyal devotion to what this nation stands for—genuine Americanism.

The President knows now and the world likewise knows that the enemies of this republic are not to be found in the South, but that here exists the strongest bulwarks of patriotism that remain on this continent.

President Roosevelt is a wonderful man and the South is perhaps prouder of him today than is any other portion of this country. May that friendship and confidence never be less on either side. The whole country needs such a leader at this time and that leader needs the South to sustain him in his efforts to carry forward this government to its manifest destiny.

THE BUCKMAN BILL.

For the sake of the State's educational interests, if for no other reason, the final fate of the Buckman school bill should be immediately determined. If the present controversy is to drag along month after month very serious harm cannot but result. An overwhelming majority of the people of Florida would, if the matter were put to a referendum, support the action already taken by the Board of Control. Of course Lake City grieves over the change that removes the State University to Gainesville, but its citizens should make the best of the situation and not try to hinder plans which if put into effect will give the State an education system a thousand times better than that which has hitherto prevailed. This fact all students of the new move acknowledge—St. Augustine Record.

People will never learn that you can't always judge from appearances. There are well dressed dummies walking about the streets all the time.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

JORDAN'S COTTON CAMPAIGN.

Old-time bulls are getting together, and at a conference held in New Orleans a day or two ago, at which there were present such men as Frank B. Hayne, W. P. Brown, Harvie Jordan, President of the Southern Cotton Association, and others equally as active in sustaining the price of American grown cotton, definite plans were adopted for the launching of the most ambitious bull campaign that the cotton world has yet had to consider. This is nothing more nor less than the tying up under contract of some 3,000,000 bales of cotton which is to be held until the mills are ready to pay 15 cents per pound, basis middling, for it.

In defense of the practicability of this plan, it was pointed out that the current crop can hardly exceed 10,000,000 bales; that the world's spinning and weaving industry is now breaking all previous records in the matter of new business and general prosperity; that most of the mills are sold up for a year to come on a basis of 14 cents cotton, and have not as yet purchased the actual cotton with which to fulfill their contracts; that the farmer and not the speculator is entitled to profit by the shortness of the crop; that a very large portion of the crop has already been sold below its value, and that the remainder must bring 15 cents if the season's average price is to reach 12½ cents, which is low when contrasted with the world's requirements and the 1905 yield.

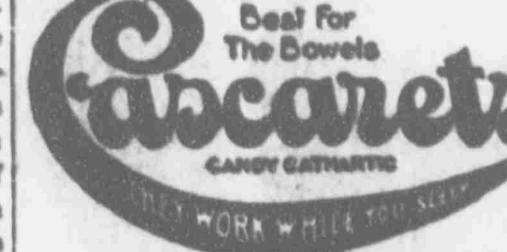

President Jordan announces his intention of immediately sending canvassers through the cotton States. These canvassers will call on the farmers and planters as rapidly as possible and secure from them written pledges to hold as many bales as they can—the number of bales to be stated—until the absence of cotton offered for sale, meeting an increasing demand for supplies, shall have brought the bid price up to 15 cents. Meanwhile the efforts of speculative "shorts" to cover at once the pressure on them is felt, will, it is believed, exert a signal and favorable effect on the market both in America and Europe.

The cause of temperance seems to be making real headway in the United States. For the first time in almost a decade the annual report of the United States commissioner of internal revenue shows a decline in the amount of whiskey consumed in this country. The figures for the year ending June 30, 1905, show a decrease of 704,640 gallons of whiskey consumed as against 1904-5, while up to 1903 for many years the annual increase of whiskey consumption had been about 7,000,000 gallons. Beer for the year 1904-5 still showed an increased consumption, but less by 70,000,000 gallons than in preceding years.

DYSPEPSIA

"Having taken your wonderful 'Cascarets' for three months and being entirely cured of stomach catarrh and dyspepsia, I think a word of praise is due to 'Cascarets' for their wonderful composition. I have taken numerous other so-called remedies but without avail and I find that Cascarets relieve more in a day than all the others I have taken would in a year."

James McGinnis, 106 Mercer St., Jersey City, N. J.

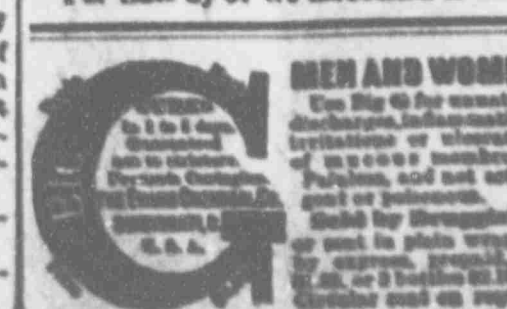

Pleasant, Palatable, Potent, Taste Good, Do Good. No Griping, No Vomiting, No Pain, No Stomach Disturbance. The genuine tablets stamped C. C. C. Guaranteed to cure or your money back.
